

Rider 2020

BOHREN & DER CLUB OF GORE

PA should fulfill the following conditions:

- 3- way Monitorsystem (if possible 6 wedges)
- stereo front EQ, and one EQ per monitor line
- for the saxophone-sound a particularly long and large reverb is required. BOHREN brings their own reverb effect device (Meris Mercury 7). The device has a mono jack input and two jack outputs (left/right) stereo. The effect should be looped into the AUX path of the PA and mixed into the sax-Channel (in stereo).

Plus:

- **VIBRAPHONE**
(Musser M55 or Yamaha YV-2700 (please take care, that the motor is working!))
- Drum-carpet
- Hazer (for example UNIQUE 2.1 or JEM MAGNUM etc.

Bohren is travelling without their own technician!

At the arrival of the band the PA system should be completely set up and fully functioning and an experienced technician has to be at the bands disposal.

Bohren needs 3 Hours Soundcheck

Light:

The band brings its own lights (5 x 7 Watt LEDs). For this they will need 5 to 6 tall mic stands with long booms (at least 2m high) with microphone-clips.

The band needs time before/ after soundcheck to set up and check their lights.

Stage:

8,50m x 6m minimum

Venue:

- if possible with seating.
If this is impossible, the band needs at least 4 or 5 rows of seats in front of the stage.
- Venue lighting should be completely dark.
- No white backdrop or screen on stage.

Catering

- sandwiches, fruit, snacks and coffee at arrival for 4 persons
- dinner after soundcheck
- also after soundcheck: 1 bottle gin, tonic water (3 liters), beer, non alcoholic drinks and one bottle dry white wine

1 Bandmember has a wheat-allergy!

1 Bandmember is vegetarian

ACCOMMODATION

- hotel for 4 persons (2 twin-rooms incl. Breakfast)

PARKING

- **secured parking** at the venue for Mini-Bus (Ford Transit or MB Sprinter)
- **secured parking** for Minibus (Transit/Sprinter) at the Hotel

NO UNDERGROUND GARAGES UNDER 2,10m!!
